LEP 3 Projects (Feb 2020)

Project Theme	Programme	Project name	Project Applicant	Date Approved ***	Project Description	Current Funding Allocation (£m)	Status (Feb, 2020)
Transport	City Route Network	LCR Intelligent Transport Systems (scheme 1)	Merseytravel	09/03/2018	This type of ITS application is seen as being the lynch pin for bus priority for the immediate future, as it is relatively low cost, non-disruptive and current as well as being highly effective and adaptable to changes in technology. Bus services route 86 is the next application of this process after the route has been completed for Bus Route 80 (overguard to St Helens	0.53	Ongoing Construction
		A59 Connectivity (scheme 2)	Liverpool City Council	09/03/2018	Improvements will deliver 3 junction improvements at Lea Hill, Ashton Street/Tarbock Street, Hornett Road/Holt Road and Ilford Road/Beech Street. The scheme will include re-surfacing at each of and between the 3 junctions, Toucl+Go/pedestrian crossing upgrades and Ascot/etc.	2.40	Ongoing Construction
		Duke Street Bus Priority (scheme 3)	Merseytravel	09/03/2018	This scheme will provide an alternate bus route from the city. Removal of traffic calming and some loading and parking to facilitate vehicle streaming. The scheme will allow Duke Street to become a Bus route for a number of diversionary services as a vital part of the City Centre Connectivity plan.	0.35	Ongoing Construction
		A562 City Connections (scheme 4)	Liverpool City Council	09/03/2018	Improvements will deliver 5 junction improvements at, Great George Street, Catherine Street/Princes Road, Grove Street/Mulgrave Street, Count Prim/Stanley Road and Lodge Lane/Tunnel Road. The scheme will include re-surfacing at each of and between the 5 junctions, and 1 upgraded crossings.	5.50	Ongoing Construction
		A580 Bus Priority Corridor (scheme 5)	Merseytravel	09/03/2018	The County/Walton Road Corridor improvements will deliver 6junction improvements at Rainford Gallery, Birkdale Valley, Birkdale Valley/Sandbrook Lane, Hesketh Street/Andrew Street, Hale Road, and Queens Drive. The scheme will include re-surfacing at each of and between the 6 junctions, and 2 upgraded crossings.	0.99	Ongoing Construction
		Ulcom Subsine Bridge (scheme 6)	Halton Council	09/03/2018	The Grade 2 listed Widnes Subway is the Silver Jubilee Bridge (SJB) is a strategic route across the River Mersey, and sets access of the key gateways to the Liverpool City Region. The SJB is the only road link between Widnes and Runcorn and carries around 80,000 vehicles per day. The Subway Crossing opens in the Autumn of 2017. This scheme seeks funding to undertake a shortfall in the SJB Major Maintenance Reinforce funding for the planned of arch steel superstructure painting project.	0.00	Physically Complete
		Kingsway Tunnel Connectivity (scheme 7)	Merseytravel	09/03/2018	Improvements to the existing inbound/outbound routes to/from Kingsway Tunnel on the Wallasey side of the River Mersey. Improvements to include refurbishment of existing roadside/verge system, parapet fencing, road restraint systems (West Kings), full length road reconstruction to failed areas and resurfacing to approximately 3km (64,000 M2) of carriageway.	1.11	Physically Complete
		Wirral Waters Safety Upgrade (scheme 8)	Wirral Council	09/03/2018	The scheme will provide an essential upgrade to improve road safety on a critical section of the Key Route Network (KRN) including the Wallasey Kingsway Mersey Tunnel, A89 and Wirral motorway. Birkenhead Docks and Wirral Waters networks, its primary purpose is to prevent a vehicle from leaving the travelled way and striking another vehicle.	0.35	Physically Complete
		LCR VTC Communication Upgrade (scheme 9)	LCR Authorities / Nethermead	09/03/2018	vTC Communications Upgrade on KRN across the LCR. To replace obsolete analogue communications (at 16Kb/sec on KRN) which will cease to be supported from 31st March 2018with a new digital comms platform. Also the Substation Transmission units become unsupported from 31st March 2020. This will provide reduced operational costs, improve future resilience and ensure that fault management and signal coordination can still only continue across the KRN and LCR.	0.95	Ongoing Construction
		A41 Corridor Improvement (scheme 10)	Wirral Council	09/03/2018	The A41 New Chester Road, New Ferry Bypass and Birch Ferry Bypass (carriageway reconstruction, replacement and renewal of street lighting columns and cabling and road restraint system. The area of carriageway to be reconstructed amounts to 7,500 linear metres of dual carriageway and 4000 linear metres of viaduct and 3,270 linear metres of single lane road.	2.00	Ongoing Construction
		A557 Widnes Town Centre Control (scheme 11)	Halton Council	09/03/2018	The A557 (part of LCR KRN) is the main western access to Widnes Town Centre and to the Widnes Waterfront commercial/mixed development opportunity area. Earle Road junction is the primary gateway to Widnes Waterfront area and is regularly over capacity. There is scope to improve the capacity of Earle Road junction to accommodate current and future traffic growth and support proposed economic and residential developments identified below.	0.50	Physically Complete
		A580 Employment Hubs (scheme 12)	St Helens Council	09/03/2018	This scheme will deliver a major corridor improvement scheme along two (senseless Roads) ringing the corridor up to standard, upgrading junctions along the corridor. The scheme will also include the provision of traffic signal improvements and street lighting where required. There will be an off road cycle path.	2.00	Ongoing Construction
		A58 Port Capacity (scheme 13)	Sefton Council	09/03/2018	The existing junction is signal controlled with a pedestrian phase across the northern most arm only. The proposed improvements will widen the approach from Sentrl Island to provide 3 approach lanes including a full right turn box into Dawn Road, improved crossing facilities at the junction and a cycle link between Mid/Full and Sentrl Island.	2.35	Land Negotiations/Design
		A57 / A5103 Corridor Cross Access (scheme 14)	Trfaworthy Council	09/03/2018	By completing the previous partial signalisation on the southern section of this junction, and to compliment the cycling and walking provisions being implemented on Valley Road/Newtny Brive through TRIP, this scheme will rogenise the remaining scales of the junction and circulatory to maintain capacity, reduced congestion and promote free of traffic and promote using the sustainable modes of travel	1.10	Physically Complete
		Connecting Kirkby (scheme 15)	Trfaworthy Council	09/03/2018	The scheme will involve capacity, an interior, air quality and safety issues through a remodelling of the junction to provide additional lanes and improved controlled crossing facilities, together with improvements to the efficiency/operation of the traffic signals.	0.70	Physically Complete
		Bank Lane (Scheme 16)	Trfaworthy Council	03/09/2018	Improvements to junctions along Bank Lane corridor in Kirkby.	2.0	Ongoing Construction
	N/A	Shakespeare Rail Interchange	Trfaworthy Council	01/05/2018	Shakespeare North Rail Interchange Prescot will deliver wayfinding and accessibility improvements between the Shakespeare North Playhouse site, Prescot Railway Station and Prescot Bus Interchange. The scheme will include the provision of a new pedestrian/cycle bridge over the railway line to travel between the station and Knowsley Safari via the town centre, and associated wayfinding, signage, gateway artwork and improved high quality public realm enhancements. Works at the station will include the installation of 2 lifts to provide step-free, liquidtes Act compliant access between the car park, station building and both platforms, and a remodelled car park to increase capacity from 48 to 84 spaces. The scheme also contains provision for future public art installations to further create a sense of place and a town centre attractive to visitors. Together, these scheme elements alongside the Shakespeare North Playhouse will encourage inward investment, support a better retail, leisure, cultural and housing offer and result in increased footfall as part of Knowsley Council's wider strategic objectives and activity for Prescot.	7.97	Ongoing Construction
	N/A	City Centre Connectivity 2	Liverpool City Council	29/10/2017	Contribution to the city centre connectivity 2 project. The project comprises of the construction of two new roads, located off Waterloo Road/Regent Road to the north west of Liverpool City Centre. The primary purpose of the scheme is to address severe traffic congestion problems which currently affect the area, particularly during the morning peak hour. More specifically to the proposed re-positioned and improved Isle of Man Ferry Terminal. The northern road runs from the waterfront at the point of the proposed re-positioned Isle of Man ferry terminal to Waterloo Road, a key route running north/south between the city centre and northern suburbs. The southern road provides a connection between Princes Parade and the Leeds Street/Cornet Howard Street/King Edward Street junction.	2.50	Ongoing Construction
	N/A	Access to Halsnead Garden Village	Knowsley Council	20/01/2020	To support off site road junction improvements linked to the wider delivery of Halsnead Garden Village.	0.60	Ongoing Construction
Business Capital		Digital Innovation Facility	University of Liverpool	27/07/2018	The project will establish a Digital Innovation Factory (DIF) within the University of Liverpool's City Centre Campus. It will be a Centre of Excellence in simulation and virtual reality, bringing together complementary areas of research of computer science, robotics, and engineering in which the University has world class capabilities and enabling engagement with businesses to promote innovation. It will involve construction of a new 3,500 sq. m facility that will enable collaborative R&D and the ability to foster and grow businesses, linked to the exploitation Of Digital Technologies. The DIF will focus on three particular priority sectors where LCR has competitive advantage, namely advanced manufacturing and engineering, low carbon energy, and digital industries, as well as other significant growth sectors including health. The project would lead to an estimated potential of 864 gross jobs over the initial 10 years (566 net additional), and 600+ in net additional GVA per annum (BCR of 14.9).	9.00	Ongoing Construction
	N/A	Garden Global	Vandex Engineering	09/07/2019	Vandex are based in Runcorn and manufacture specialist equipment for the printing industry. They are currently looking to develop a new factory, headquarters and research and development building to expand the business	2.00	Ongoing Construction
	N/A	Kirkby Town Centre	Knowsley Council	05/11/2019	The project seeks to deliver a skilled town centre development scheme, regenerate the existing shopping centre through intensive asset management and mixed- development proposals and enable the delivery of circa 450 homes on a central brownfield site. (Part Funded from LEP)	12.25	OA Approved Pre DFA
	N/A	Micro Nook	Rivacre RR Group	03/11/2019	Grant grant funding to refurbish/alter works (prior-start construction) to open up a lower/first/attic at Micro Nook for delivery of an initial 160 housing unit, and a total completed scheme of 480 housing units	7.5	OA Approved Pre DFA
Skills	Skills Call 2018	Shroud A)	Hugh Baird College	06/12/2019	Major refurbishment works of the roof, heating system and teaching accommodation	0.49	In delivery
		Shroud B)	Bruche Met College	06/12/2019	Abolishment of the College's four main sites to reduce estates costs as well as the carbon footprint. Savings and funds released will be used to improve the quality of apprenticeships to College learners	0.49	In delivery
		Shroud A)	Southport College	06/12/2019	The project comprises the Jumpstow refurbishment of the College's Sale and Plumbing Workshops, an annex of the College of approximately 998m3	0.36	In delivery
		Shroud A)	Riverside College	06/12/2019	Refurbishment works to ensure building complies most building control regulations and increase the energy efficiency of Jennder classroom walls. Improvement of the estate to a 'Good' grade.	0.45	In delivery
		Shroud A)	St Vertigo	06/12/2019	Improved facilities at the St Helens engineering building at the St Vertigo Group SHWA campus.	0.76	In delivery
		Shroud A)	City of Liverpool College	06/12/2019	Re-roofing Building on Duke Street and refurbishment of the Vestibule on Duke Street and Clarence Street.	0.9	In delivery
		Shroud A)	Greenbank College	06/12/2019	The facility will provide a first class mentro-work environment (HMW) that will enable training for disabled people working to work in the Visitor Economy. The new facility will develop a progression ladder for disabled people that will give them both the skills and the job experience to better secure full time employment in this vibrant area of the local economy.	0.49	In delivery
		Shroud A)	AVCP	06/12/2019	Refurbishment of existing space (72sm2) to develop workshops in the construction training centre and to refurbish the skills centre in to a digital and manufacturing centre. This will increase the number of learning places in construction from 16 to 45 and create #digital and creative training places per year.	0.49	In delivery
		Shroud A)	KWC's	06/12/2019	To improve the quality of its facilities to enable trainees to learn in an improved environment.	0.24	In delivery
		Shroud A)	Engineering College	06/12/2019	The Engineering College aspires to develop a 3600M² factory capability across the site beginning with a 'simulated design to manufacture environment', an 'asset monitoring' facility, and a mini robotics suite within these nine areas, to support the delivery of new Digital Support Technician apprenticeship roles for the LCR, and a working 'tech-desk' SPV suite for higher apprenticeships Standards, responding to the imminent convergence of digital technology and engineering skills.	0.31	In delivery
		Shroud A)	Myerscough College	06/12/2019	To provide accessible classroom facilities to meet the needs of the SEND students studying at the Myerscough College Croxteth Park Centre.	0.24	In delivery
		Shroud A)	Halton Council	06/12/2019	Improvements to the Kingsway Learning Centre.	0.35	In delivery
		Shroud A)	LIMA'	06/12/2019	Re-repurposing of a 335 square metre space at LIMA's Byrom Street campus. Creating a multi-purpose area dedicated to supporting those aspiring to enter construction and a pull environment higher education.	0.24	In delivery
		Shroud A)	KWC	06/12/2019	Energy efficient refurbishment project to improve the windows and heating in the building	0.28	In delivery
		Shroud A)	Engineering College	06/12/2019	Pre-establishment of a centre for Kiet Point Assessments for traditional engineering skills. Additional equipment to meet new standards and assessment requirements.	0.24	In delivery
		Shroud A)	St Helens Chamber	06/12/2019	To enhance an exciting learning environment by investing in digital equipment to improve the quality of the learning experience and meet modern industry standards. It will also facilitate a small increase in the volume of learners.	0.00	In delivery
		Shroud A)	KWC's	06/12/2019	To make learning more accessible and enable North West Community Services to update their learning environment to become a facility to which its learners can benefit from modern industry standards	0.77	In delivery
		Shroud A)	Wirral Met College	06/12/2019	Improve Wirral Metropolitan College's Motor Vehicle department's equipment to industry standard, incorporating new vehicle technologies and training techniques. Incorporate "Working at Height" within the College's large Construction department in Wirral Waters.	0.35	In delivery
		Shroud A)	Myerscough College	06/12/2019	Specialist equipment to support the delivery of programmes at a modern industry standard.	0.06	In delivery
		Shroud A)	Halton Metropolitan	06/12/2019	Classroom equipment to prepare for the 2020 Digital Skills programmes, including classroom whiteboards and projectors, trainer hardware and software and investment in new technology	0.24	In delivery
		Shroud A)	KWFC	06/12/2019	This project will facilitate the extension of the apprenticeship programme into Advanced Manufacturing in the Food and drink industry. KCP will identify the need for Industry 4 standard technology meeting the demands of employers in the Engineering and Food and Drink Manufacturing sectors in KCR.	0.5	In delivery
		Shroud A)	MHA	06/12/2019	Installation of LED lighting to reduce utility and maintenance costs. Supporting a safe learning environment for those on ASD spectrum with adjustable lighting in tone and colour. An induction loop system to enhance accessibility and an autism friendly learning space as well as an accessible and engaging reception area.	0.13	In delivery
		Shroud A)	Riverside College	06/12/2019	Equipment to develop engineering and manufacturing provision including training rigs. To enable the introduction and growth of new apprenticeships.	0.36	In delivery

Note 1 - The LEP does not approve grant funding. The date shown is the date that the LCR Combined Authority (CA) met and agreed to grant fund the project. Contract development follows CA approval and leads to the point of legal commitment through the execution of the Grant Funding Agreement (GFA). A project may be withdrawn before a GFA is executed.
